The figures show a Garrard synchronous wall clock. The clock is marked Made in England. The style is Art Deco. The oak case is 23 cm high × 31 cm wide. The dial is 19 cm diameter with aluminium Roman numerals and hands. The brand on the back is Garrard. The clock is fitted with a Later Garrard movement. Power is supplied via a non standard two pin connector. To start the clock rotate the starter knob. There is no seconds hand, but the rotating starter knob acts as a tell tale.
