

## General Time Dialite synchronous alarm clock

Les Pook  
© 2015 Sevenoaks, UK

The figures show a General Time Dialite synchronous alarm clock. The yellow plastic case is 7 cm high  $\times$  12½ cm wide. The illuminated dial is 5½ cm diameter with white Arabic numerals, black hands, a red seconds hand, and an aluminium alarm set hand. The brand on the front and on the back is General Time. The model name on the front is Dialite. A sticker on the base is marked '935404 UK 73'. '73' is probably the year of manufacture, 1973. The movement is self starting.
