

## Vostok Watch Makers wall clock

Les Pook  
© 2017 Sevenoaks, UK

Figure shows a Vostok Watch Makers wall clock, as used in Russian submarines, The serial number is 4771. The sludge coloured metal case is 8¼" diameter × 3" deep. The white dial is 5¼" diameter with a chrome surround, black Arabic numerals, black hands and a red seconds hand. The winding key doubles as the case opening key. Figures 2-5 show the high quality movement, which is designed for easy maintenance. A close up of the fully jewelled platform lever escapement is shown in Figure 6.
